SUPERINTENDENT'S REPORT

To the School Board of Weare:

I herewith submit my fifth annual report.

Our general record for the past year compares favorably with that of previous years and also with State Standards. The attendance record, like that of the year before, is especially worthy of mention. The honor roll of perfect attendance, for one term or more, shows an impressive total of 122 names, 50 % of the total enrollment of the schools. The record of all schools for the year was 94.68 %. This means that a large majority of the Weare children were attending to their school duties practically all of the time. Practically all of the time, means a full school year. Only $4\frac{1}{2}$ days, out of a possible 180, were lost on account of holidays and other causes: I wish to congratulate all Weare citizens on having so overcome natural conditions, as to make it possible for their children to achieve such remarkable success in school attendance. The children and teachers are also to be congratulated for their whole-hearted coöperation, which gave them a very real share in this achievement.

The New Hampshire State Law provides for a school year of 36 weeks or 180 days of actual school work. Our teachers are employed on this basis and the district pays them for 36 weeks of service. If, then, we lose from our school year more than 4 or 5 days, as a business organization, we are becoming very inefficient. It is not always satisfactory to make up days lost; so a number of school districts in our state are providing for no-school days by adopting a school year of 37 or 38 weeks, thereby getting in from 177 to 183 days of actual school work.

The all-around advantages of the new high school building are enabling us to greatly improve our work. We are now equipped to teach both physics and chemistry according to generally accepted standards.

The Weare High School will always be linked with the personality of its first Headmaster Charles D. Dalzell and with the faithful officials and teachers who carried on with him. I, with you and all citizens of Weare, looked upon his resignation with a deep feeling of personal loss. But today, as the work goes on, we realize more fully, than ever before, the value of his service to the school and community and that his influence will continue as a vital factor in all our activities. His act in recommending Leslie S. Cummings as his successor, was further proof of his abiding interest. Mr. Cummings soon became the choice of all and we are sure that, under his wise leadership, the work, so nobly and well begun, will go on to a larger measure of success in the future.

Our enrollment for the current year is 51, the largest in the history of the school. The Junior High, grades 7 and 8, organized as a part of the High School, was opened September 7th, 1926, with an enrollment of 22, making a total of 73 in the new building. The Junior High has been a success from the first day; no doubt it will make a permanent place for itself in the Weare school system. The following named schools have no pupils in grades 7 and 8 this year: North Weare, Center, Rockland, Friends, Riverdale and South Weare Store School.

You will note, from the statistical tables for the current year, the number of pupils enrolled in each school. Since these figures were compiled, the River Road School has lost 2 pupils. The present outlook is for only 5 pupils for next year. This number is far too small for efficient organization of the school. This community is further handicapped by being unable to provide a suitable boarding place for the teacher. The cost per pupil in a school like this is much more than similar costs in other parts of the town. While I am fully acquainted with the difficulties involved, I nevertheless recommend, that the River Road School be closed and the pupils be assigned to the Riverdale School.

In October, of the current school year, a one day rural Teachers' Institute, under the auspices of the State Board of Education, was held at the South Weare Hall. Teachers were present from Weare, Deering, New Boston, Hopkinton, Henniker, Dunbarton and Goffstown. A committee, headed by Allen Sawyer, had charge of local arrangements and served an excellent dinner to the visiting speakers and teachers. It seems as if meetings of this kind are, not only helpful to the teachers, but must be of considerable help in many ways to the entertaining community. I hope meetings of a similar nature may be held in other sections of the Town at some future date.

Under the present plan of State wide supervision of schools, Weare is in a union with Hopkinton, Henniker and Dunbarton. Schools, teachers and pupils are distributed as follows:

Hopkinton has 14 schools, 18 teachers and 285 pupils.

One teacher has music only.

Henniker has 9 schools, 13 teachers and 251 pupils. One teacher has music only.

Weare has 13 schools, 15 teachers and 236 pupils.

Dunbarton has 5 schools, 5 teachers and 78 pupils.

A total of 41 schools, 51 teachers and 850 pupils.

During the past five years Hopkinton has added two schools; Henniker has closed one and put in an extra teacher in the High School; Weare has added five; thus making a net increase in the supervisory union, of six schools and seven teachers.

In closing, I wish to express appreciation for the whole-hearted coöperation of officials, parents, teachers and pupils, which made the work both pleasant and successful.

Respectfully submitted,

GAIUS H. BARRETT,
Superintendent.
